

Good Morning Dragons!

We are so excited to introduce you to your new teacher, Mrs. Del Avellano! Many of you already know and recognize Mrs. Del Avellano as she has been substitute teaching at our school for many years. As such, the transition into your regular classroom teacher for the remainder of this school year will be a smooth and easy one. As you are aware, C-track returns from off-track time on Monday, August 31.

Below is the updated information that you need to be ready to go on Monday morning. For the 2020-2021 school year, all teachers will be using Google Classroom as the online platform through which instruction is provided. This is where you will be able to find the teacher's contact information, office hours, assignments, grading policies, and more!

It is important to note there will be several changes as we continue our Remote Learning together:

- Teachers will build rapport and establish relationships with their new students
- Teachers will provide standards-based content and instruction
- Teachers will regularly monitor work completion and provide feedback to students
- Student participation is mandatory and attendance will be taken
- Students will have daily academic activities and assignments to engage in
- Students assignments will be graded and grades will be regularly updated in Q
